### Letter of recommendation

Hereby we would like to acknowledge that Intlabs company provided a training: "Public cloud computing - Amazon Web Services" on 05.-06.10.2013, which was attended by employees of our company.

The Trainer from Academy of Virtualization conducted a 2-days training in the form of theoretical lectures combined with practical workshops using Amazon AWS environment. The training was of a very high level of expertise and organization and the participants appreciated the high level of training materials. Trainer showed great knowledge of Amazon Web Services and prepared exercises allowed our employees to use the acquired knowledge in practice.

We definitely recommend Intlabs as a professional provider of specialized training courses and consulting services in the field of Amazon Web Services.
